Wespath Institutional Investments’ (WII) Outsourced Chief Investment Officer (OCIO) service offering provides investment solutions for United Methodist-related institutional investors, including foundations, children’s homes, older adult facilities, higher education institutions and healthcare organizations.

WII offers diversified global exposure to its world-class investment managers through a family of daily priced funds. Our investment process proactively incorporates the consideration of environmental, social and governance (ESG) factors into investments across asset classes and in the selection of external asset managers.
Finally, an OCIO That Shares Your Mission

We believe in doing well, together. Our alignment with your values and experience with UM-related investors, allows us to understand the challenges you face better than other OCIO providers. WII offers investment solutions designed exclusively for 501(c)(3) organizations and 100% of our institutional clients are not-for-profit, faith-based investors.

As your OCIO provider, WII is an extension of your business and mission. We take on the rigors of investment management while always striving to advance your financial goals and act as a partner in asset growth.

Our OCIO model helps investors free up capacity to be redeployed in other areas of their business — including elevating mission work and ministries.

Sustainable Investing for the Future

We seek to shape our investment program with the future in mind. Our sustainable investment activities seek to maximize opportunities and manage the financial risks associated with a changing world, while having a positive impact on our society.3

Our Sustainable Economy Framework

Long-Term Prosperity for All
We believe in equal opportunities for advancement.

Social Cohesion
We support reliable access to basic necessities.

Environmental Health
We advocate for resilient ecosystems.

We use a set of actions—invest, engage and avoid—to ensure we are proactively contributing to the Sustainable Economy Framework.

- We invest in companies that demonstrate meaningful social and environmental impact to seek higher returns.
- We actively engage companies and policymakers by urging them to adopt sustainable practices and policies.
- Finally, we avoid certain investments due to ethical exclusions or because they pose excessive sustainability-related financial risks.
Creating a Global Impact

Transitioning Out of Homelessness
Our Positive Social Purpose Lending Program seeks impact investments that serve individuals with low and moderate income levels. In 2018, we provided financing to 237 Landing, a 200-bed transitional shelter for homeless men in the Bronx, New York.

Tackling the Opioid Crisis
We are a member of Investors for Opioid and Pharmaceutical Accountability, a group of institutional investors representing $4.2 trillion that seek to hold drug manufacturers, distributors and pharmacies accountable for the risks of opioids to society, the economy and shareholder value.

Addressing Climate Risk with Oil Giants
We have engaged companies on climate risk for over 20 years. Concurrent with our multi-year engagement with Chevron, the company has conducted climate scenario analyses, published its first climate risk report, agreed to set greenhouse gas (GHG) reduction goals and set methane reduction goals.

International Recognition
- Co-author and founding signatory to the UNPRI
- A+ rating for Strategy and Governance
- One of 47 global investors recognized in PRI's 2019 Leaders' Group
